

Manufacturing and Engineering Insurance

Catlin offers commercial manufacturing and engineering insurance packages to clients that demonstrate good risk management practices.

We target high-quality commercial and industrial SME risks, including those with up to 100% US turnover. Minimum premiums start at £5.000.

Local underwriters working from Catlin's expanding network of regional offices are empowered to use their expertise, issuing terms on an exclusive basis only: one quote, one broker.

Whatever the risk, we can reward companies with superior risk management and health & safety practices with preferential rating and enhanced coverage, including efficacy and financial loss extensions.

Targeted industries include:

- Manufacturing and engineering businesses with a products liability focus (including up to 100% US exports)
- Life science companies
- Aviation
- Automotive (including safety-critical)
- Marine
- Military
- Medical device (including fully invasive)
- Pharmaceutical

Catlin Select

Catlin Select is a range of insurance products written for UK commercial clients. Catlin Select combines broad, bespoke coverage with Catlin's first class client service. Coverage is written by Catlin underwriters located throughout the UK.

Catlin Select coverage is underwritten by Catlin UK (Catlin Insurance Company (UK) Ltd.), part of Catlin Group Limited. The Catlin Group is a worldwide specialty insurer and reinsurer, operating more than 50 offices in 20 countries and writing more than US\$4 billion in gross premiums annually. In the UK, we are the largest insurer at Lloyd's of London as well as a leading underwriter of UK business through regional offices located throughout the country.
